# How we started ?

With a wealth of experience spanning over a decade in the Indian furniture export industry, brothers Vikas and Vijay initiated their entrepreneurial venture in 2019. Operating under the umbrella of EYAANA CORPORATION, they offered comprehensive buying and sourcing services to overseas buyers.

In 2022, their insightful understanding of the Indian domestic market uncovered a significant gap in the sector for luxury designer furniture directly sourced from factories.

Indian customers faced a challenge as the existing channels were unresponsive to their needs within a budget-friendly range. In response to this need, we launched [furnituremaker.in](https://www.furnituremaker.in).

Our mission is to offer customized furniture directly from the factory to the customer, eliminating intermediaries.

Founded on the principles of quality and affordability, FurnitureMaker.in ensures Indian customers access bespoke furniture solutions that match their unique preferences while maintaining a pocket-friendly budget.

# Our Mission and Vision

## Mission

“At FurnitureMaker.in (FM), our mission is to provide Indian customers with personalized, budget-friendly designer furniture directly from factories. We strive to redefine the furniture experience, ensuring a seamless blend of luxury and affordability while prioritizing quality craftsmanship and customer satisfaction.”

## Vision

“At FurnitureMaker.in (FM), our vision is to be the foremost choice for individuals seeking accessible, high-quality designer furniture in India. We aim to set new standards in the industry by continually innovating and delivering exceptional, personalized solutions that enrich the lives and spaces of our customers.”

# Our Goals

“Delight customers, lead in innovation, and grow sustainably.”

## Customer Delight

“**Ensure** unparalleled customer satisfaction by consistently delivering bespoke furniture solutions that exceed expectations.”

## Design Excellence

“**Foster** a culture of continuous innovation and design excellence to stay at the forefront of the furniture industry, offering cutting-edge and trendsetting creations.”

## Sustainable Growth

“**Pursue** sustainable business practices, focusing on environmental responsibility and community impact, while achieving steady growth in market presence and customer reach.”

# In House Production

“At FurnitureMaker.in we control the process, ensuring top-tier quality and flexibility in our in-house production. Explore reliability redefined.”
